The Division approves this request, and we will modify our database accordingly. While I realize it takes some time to put together a good application for a large mine, I encourage you--or Geneva--to make every effort to make the submittal by the end of March. I appreciate your cooperation and willingness to let us know how the process is proceeding.

Paul,

As you are aware, the LDS Church has a Letter of Credit in Place for this property and also have submitted a Reclamation Contract to the State. We have been working diligently with Geneva Rock to prepare a lease agreement for them to operate this sand and gravel property. With the holidays coming up and also with the time it often takes to work through the legal aspects of both parties working back and forth to come to an agreement on the lease, it is still going to take some time for this to happen. Our plan is to expedite this process as much as we can. If all goes as planned, we anticipate that Geneva Rock can have the NOI submitted by the end of March, 2010. While things may come up that delay this, we will work towards that goal and keep you apprised of the progress.

Thank you,

Kyle S. Kingsbury
